Room 1061  
Rockville, MD 20852

Dear Ms Henney;

Please put a moratorium on genetically engineered foods until they are labeled safe.

I have watched my daughter struggle with the allergies she has and all her food problems. She doesn't need GE foods to make it more difficult or to limit her food menu more.

If you could see how some people suffer with allergic reactions which can lead to death in some cases, I think you would realize the extreme importance of this request.

Sincerely,

*Christina Skomp*
